Dear Dr. Greeley,

Thanksgiving in a few days - which reminds me that I haven't thanked you and others in the So. Shore Astronomical Society for the very successful star gazing night you conducted at the library. It was a while back, but I think we were all in agreement that it was a very fun evening for the children, their parents, and the librarian.

I hope you will convey our thanks to others who took the trouble to set up their telescopes and share their knowledge with those who were here. Do you think we can have another star gazing night? I would like that very much.

Sincerely, Phyllis Lindsay
