

Hi Everyone.

Hope you are all well at this time and ready for the Holidays.

Here are the minutes of the December meeting.

- Mike McCabe hosted another successful Zoom meeting on December 2nd and began by going over November in Review.
- There were two successful evenings of observing at Centennial Field with about six members present.
- Our astro-photographers were very active throughout the month and shared their many beautiful photos with club members.
- Mike presented one photo from each photographer and shared information by giving a very short summary of the object in the photo.
- Louis suggested we display these photos at the Scituate Library. He discussed this with Sue and she thought it was a great and viable idea.
- Mike hosted an astronomy trivia night! Lots of fun and hopefully we can do it again.
- A list of December objectives was presented.
- Louis also suggested we host another star party in the spring at Hazen's Notch in Vermont. The last one was such a great time, how about another weekend of dark sky observing.
- Mike will be hosting a constellation study series for 2001. Great idea! Each month we will identify a visible constellation and learn about the position, history and more. This would take place at Centennial Field.
- Election results: President- Eric Lawrence. VP Jeff Smith. Recording Secretary- Judy Macioci and Treasurer- Mike McCabe
- Board members- Patty Bogan, Don Greeley and Hal Schaefer.
- The Astronomer of the year award went to Carl Bellitti for his great work.
- Door Prize, went to George Roberts.

There it is folks..short and sweet!

Have a happy, safe and joyous holiday!

Judy
